Agribusiness Marketing and Management Class

The Agribusiness Marketing and Management class participated in a sales project where they attempted to convince two judges to rent their chosen equipment. One group chose a mini excavator, another had a skid steer, and the other chose a roller/packer. Each group was evaluated on 5 different categories: content, organization, effectiveness of visual aid, speaker delivery, and response to questions. All of the students did a great job presenting; a few of them could make a career out of sales!

The skid steer group was Cody Robertson, Jadyne Dane, and Johanna Govea; the roller/packer was presented by Jayton Perry, Cesar Padilla, and Ivan Olguin; and the excavator group consisted of Monica Cenicerros, Maribel Padilla, and Trinity Sanchez.

The class would like to thank Bennie Bible and Green Acres Rentals for allowing the use of their equipment for the project; they would also like to thank Steve and Ms. Fitzpatrick for taking time to come evaluate their sales pitches.

After School ACE Enjoys Some Good 'ol Pickleball!

TAKEN FROM WIKIPEDIA: Pickleball is a paddleball sport (similar to a racquet sport) that combines elements of tennis, badminton, and table tennis. Two or four players use solid paddles made of wood or composite materials to hit a perforated polymer ball, similar to a Wiffle Ball, over a net. The sport shares features of other racquet sports, the dimensions and layout of a badminton court, and a net and rules somewhat similar to tennis, with several modifications. Pickleball was invented in the mid 1960s as a children's backyard game.

HISTORY: The game started during the summer of 1965 on Bainbridge Island, Washington, at the home of former State Representative Joel Pritchard who was elected in 1972. He and two of his friends, Bill Bell and Barney McCallum, returned from golf and found their families bored one Saturday afternoon. They attempted to set up badminton, but no one could find the shuttlecock. They improvised with a Wiffle ball, lowered the badminton net, and fabricated paddles of plywood from a nearby shed.

Some sources claim that the name "Pickleball" was derived from that of the Pritchard's family dog, Pickles, or from the term "pickle boat". According to Joan Pritchard, Joel Pritchard's wife, "The name of the game became Pickle Ball, after I said it reminded me of the Pickle Boat in crew where oarsmen were chosen from the leftovers of other boats. Somehow the idea the name came from our dog Pickles was attached to the naming of the game, but Pickles wasn't on the scene for two more years. The dog was named for the game, but stories about the name's origin were funnier thinking the game was named for the dog.
